

## PDF Data Extraction and Cleaning – Assisted Living Facilities

I extracted structured data (Name, Address, Phone, Website, etc.) from an unstructured Assisted Living PDF. The data was cleaned, validated, and exported to CSV for easy analysis.

**Tools Used:** Python, Pandas, PyPDF2, Regex.

### Steps Taken:

1. Extracted text from PDF.
2. Parsed key fields (Name, Address, Phone, Website).
3. Cleaned formatting inconsistencies.
4. Checked missing websites via online search.
5. Exported clean data to CSV.

Beds: 115 IL/PP/R/F1/M1

**Assisted Living Licensure**

Facilities in Rhode Island are licensed by levels of service. This means the licensed facility has the authority to admit residents according to the following classification for fire (F) and medication (M).

**Facility listings are strictly informational and should not be considered an endorsement by the Alliance for Better Long Term Care.**

**LEVELS:**  
F1 – for residents who are not capable of self-preservation (requires a more stringent Life Safety Code). F2 – for residents who are capable of self-preservation.  
M1 – for residents who require central storage and administration of maintenance medication M2 – for facilities that only assist residents with self-administration of medications.

PP – Private Pay Only MC – Memory Care/Dementia and/or Alzheimer's Nursing Home Attached IL – Independent Living ADC – Adult Day Care OHA – Office of Healthy Aging Waiver RHW – Rhode Island Housing Waiver SSI – SSI Waiver R – Respite
